2E. Continuum of Care (CoC) Sheltered Point-in-Time (PIT) Count

Instructions:

For guidance on completing this form, please reference the FY 2016 CoC Application Detailed Instructions and the FY 2016 CoC Program Competition NOFA. Please submit technical questions to the HUD Exchange Ask A Question.

The data collected during the PIT count is vital for both CoC's and HUD. HUD needs accurate data to understand the context and nature of homelessness throughout the country, and to provide Congress and the Office of Management and Budget (OMB) with information regarding services provided, gaps in service, and performance. Accurate, high quality data is vital to inform Congress' funding decisions.

2E-1. Did the CoC approve the final sheltered PIT count methodology for the 2016 sheltered PIT count? Yes

2E-2. Indicate the date of the most recent sheltered PIT count: (mm/dd/yyyy) 01/28/2016

2E-2a. If the CoC conducted the sheltered PIT count outside of the last 10 days of January 2016, was an exception granted by HUD? Not Applicable

2E-3. Enter the date the CoC submitted the sheltered PIT count data in HDX: (mm/dd/yyyy) 04/28/2016

2F. Continuum of Care (CoC) Sheltered Point-in-Time (PIT) Count: Methods

Instructions:

For guidance on completing this form, please reference the FY 2016 CoC Application Detailed Instructions and the FY 2016 CoC Program Competition NOFA. Please submit technical questions to the HUD Exchange Ask A Question.

2F-1. Indicate the method(s) used to count sheltered homeless persons during the 2016 PIT count:

Complete Census Count:	<input checked="" type="checkbox"/>
Random sample and extrapolation:	<input type="checkbox"/>
Non-random sample and extrapolation:	<input type="checkbox"/>
	<input type="checkbox"/>

2F-2. Indicate the methods used to gather and calculate subpopulation data for sheltered homeless persons:

HMIS:	<input checked="" type="checkbox"/>
HMIS plus extrapolation:	<input type="checkbox"/>
Interview of sheltered persons:	<input type="checkbox"/>
Sample of PIT interviews plus extrapolation:	<input type="checkbox"/>
Aggregate survey data from seven non-HMIS providers	<input checked="" type="checkbox"/>

2F-3. Provide a brief description of your CoC's sheltered PIT count methodology and describe why your CoC selected its sheltered PIT count methodology. (limit 1000 characters)

Each provider is asked to complete an aggregate provider survey as well as enter data in HMIS. This methodology was selected to ensure that all sheltered homeless are counted because some faith-based agencies do not utilize HMIS.

Surveys are used as a data quality check as numbers are compared with provider-entered HMIS data. HMIS data is the preferred PIT Count data and is used whenever possible. If the HMIS and Provider Survey numbers do not match, the provider is contacted about the discrepancy and asked to correct the HMIS data. The HMIS data is always used as the verifiable source over the Provider Survey.

2F-4. Describe any change in methodology from your sheltered PIT count in 2015 to 2016, including any change in sampling or extrapolation method, if applicable. Do not include information on changes to the implementation of your sheltered PIT count methodology (e.g., enhanced training or change in partners participating in the PIT count). (limit 1000 characters)

Not applicable.

2F-5. Did your CoC change its provider coverage in the 2016 sheltered count? No

2F-5a. If "Yes" in 2F-5, then describe the change in provider coverage in the 2016 sheltered count. (limit 750 characters)

Not applicable.

2G. Continuum of Care (CoC) Sheltered Point-in-Time (PIT) Count: Data Quality

2G-2. Describe any change to the way your CoC implemented its sheltered PIT count from 2015 to 2016 that would change data quality, including changes to training volunteers and inclusion of any partner agencies in the sheltered PIT count planning and implementation, if applicable. Do not include information on changes to actual sheltered PIT count methodology (e.g. change in sampling or extrapolation methods). (limit 1000 characters)

Not applicable.

2H. Continuum of Care (CoC) Unsheltered Point-in-Time (PIT) Count

Instructions:

For guidance on completing this form, please reference the FY 2016 CoC Application Detailed Instructions and the FY 2016 CoC Program Competition NOFA. Please submit technical questions to the HUD Exchange Ask A Question.

HUD requires CoCs to conduct an unsheltered PIT count every 2 years (biennially) during the last 10 days in January; however, HUD also strongly encourages CoCs to conduct the unsheltered PIT count annually at the same time that they conduct annual sheltered PIT counts. HUD required CoCs to conduct the last biennial PIT count during the last 10 days in January 2015.

2H-1. Did the CoC approve the final unsheltered PIT count methodology for the most recent unsheltered PIT count? Yes

2H-2. Indicate the date of the most recent unsheltered PIT count (mm/dd/yyyy): 01/28/2016

2H-2a. If the CoC conducted the unsheltered PIT count outside of the last 10 days of January 2016, or most recent count, was an exception granted by HUD? Not Applicable

2H-3. Enter the date the CoC submitted the unsheltered PIT count data in HDX (mm/dd/yyyy): 04/28/2016

2I. Continuum of Care (CoC) Unsheltered Point-in-Time (PIT) Count: Methods

Instructions:

For guidance on completing this form, please reference the FY 2016 CoC Application Detailed Instructions and the FY 2016 CoC Program Competition NOFA. Please submit technical questions to the HUD Exchange Ask A Question.

2I-1. Indicate the methods used to count unsheltered homeless persons during the 2016 or most recent PIT count:

Night of the count - complete census:	<input checked="" type="checkbox"/>
Night of the count - known locations:	<input checked="" type="checkbox"/>
Night of the count - random sample:	<input type="checkbox"/>
Service-based count:	<input type="checkbox"/>
HMIS:	<input checked="" type="checkbox"/>
	<input type="checkbox"/>

2I-2. Provide a brief description of your CoC's unsheltered PIT count methodology and describe why your CoC selected this unsheltered PIT count methodology. (limit 1000 characters)

The methodology used for the CoC PIT count is a street-based survey of the unsheltered homeless population. To ensure that all known homeless locations are surveyed, the CoC utilizes street outreach teams and law enforcement to identify locations. Volunteers are trained to use the survey tool, engage homeless persons, and learn the importance of accuracy in recording responses. On the day of the count, volunteers are grouped in teams led by a knowledgeable Team Lead to ensure that each team is able to safely access homeless encampments and service sites. Prior to HMIS entry, all surveys are unduplicated by hand and analyzed for completeness/quality. After HMIS entry, the sheltered and unsheltered data are combined and unduplicated again prior to being sent to a consultant for analysis. This methodology was selected due to the geography and significant population density of Pinellas County.

2I-3. Describe any change in methodology from your unsheltered PIT count in 2015 (or 2014 if an unsheltered count was not conducted in 2015) to 2016, including any change in sampling or extrapolation method, if applicable. Do not include information on changes to implementation of your sheltered PIT count methodology (e.g., enhanced training or change in partners participating in the count). (limit 1000 characters)

No change in methodology was made - not applicable.

2I-4. Has the CoC taken extra measures to identify unaccompanied homeless youth in the PIT count? Yes

2I-4a. If the response in 2I-4 was "no" describe any extra measures that are being taken to identify youth and what the CoC is doing for homeless youth. (limit 1000 characters)

Not applicable.

2J. Continuum of Care (CoC) Unsheltered Point-in-Time (PIT) Count: Data Quality

Instructions:

For guidance on completing this form, please reference the FY 2016 CoC Application Detailed Instructions and the FY 2016 CoC Program Competition NOFA. Please submit technical questions to the HUD Exchange Ask A Question.

2J-1. Indicate the steps taken by the CoC to ensure the quality of the data collected for the 2016 unsheltered PIT count:

Training:	<input checked="" type="checkbox"/>
"Blitz" count:	<input type="checkbox"/>
Unique identifier:	<input type="checkbox"/>
Survey questions:	<input checked="" type="checkbox"/>
Enumerator observation:	<input type="checkbox"/>
Post survey quality review	<input checked="" type="checkbox"/>
None:	<input type="checkbox"/>

2J-2. Describe any change to the way the CoC implemented the unsheltered PIT count from 2015 (or 2014 if an unsheltered count was not conducted in 2015) to 2016 that would affect data quality. This includes changes to training volunteers and inclusion of any partner agencies in the unsheltered PIT count planning and implementation, if applicable. Do not include information on changes in actual methodology (e.g. change in sampling or extrapolation method). (limit 1000 characters)

The only change made to the training entailed a thorough explanation of the change in definition of "chronic homeless" and the importance of adequately determining chronicity with interviewees. Video training was designed to provide examples of different interview scenarios.
